EDITORIAL PREFACE

I would like to welcome you to the Vol 4 issues 1&2 of the SLU Journal of Science and Technology, a peer-reviewed and broad-scope Journal that aims at bridging the gap between Science and Technology, and addresses both academics and practicing professionals. The Journal is designed to advance scientific knowledge and promote innovations that are focused in solving some of our problems. Definitely, there are a number of Journals covering the above-mentioned areas. However, this Journal will be unique in that it encourages authors to submit works addressing key primal in scientific and engineering issues. In addition, the Journal is one of the few in Nigeria with standard and functional online editorial management system that gives authors an opportunity to view through their dashboard the review processes from submission up to the publishing stage of their Articles. Also, the journal has recently acquired CrossRef membership, meaning all published articles will now have a dedicated Digital Object Identifier (DOI).

This special issue of the Journal includes Eighteen (18) papers with high level of originality. The special issue will feature recent advancements in computing, networking and communications technologies. Furthermore, the state-of-the-art thought-provoking areas, and consolidated expert views on Fostering Digital Economy through Recent Trend in Information Technology and the applicability of ICT for sustainable development are provided.

Finally, I would like to thank many people who created the opportunity for the special issue. The list includes all my guest editors and SLUJST Editorial board members. In particular my thanks to Prof. Nasir Faruk (Managing Editor) and Dr Salisu Garba (Assistant Managing Editor) for their tireless efforts in making the special issue a reality.
